

Schenden's Spas announces stress free holiday shopping with the introduction of online gift certificates.

"Online spa gift certificates make perfect sense," said Leslie Bean, Director of Schenden's Spas. "We're in the relaxation business; our goal is to make every aspect of a Schenden's Spa experience stress free."

The online service allows clients to customize gift certificates by choosing an exclusive Schenden's Spas package, any individual service(s) or a specific dollar amount. Gift certificates can then be e-mailed to recipients directly from the website or printed on the spot.

"Busy men buying for their wives, girlfriends, mothers and daughters love this service," said Bean. "It's quick and easy for them to buy and," Bean laughed, "Have you ever heard of a woman not appreciating a spa gift certificate?"

Small business owners are printing on-demand gift certificates for employee holiday gifts and out of state friends and family members are logging on to take care of gifts for their loved ones in Michigan. "We're open seven days a week and until 8:00 PM Monday-Saturday," said Bean. "The online gift certificates allow us to be even more available to our clients."
